

felicity batiks

by **Kate Spain**

One of the things I love most about living in New England is the change of seasons. Even as the chill of winter settles in, there are so many things to look forward to; the clear night sky with twinkling stars, the muffled sound of snow falling, and the peaceful quiet of a sleeping earth. At this darker time of year, we light up our indoor spaces with string lights and candles and the warm glow from our fireplace.

I designed Felicity batiks to bring some sparkle to the season with glittery golds, pine greens, ribbon reds, snowy greys and a midnight black embellished with shining stars.

Motifs of trees, snowflakes, ornaments, poinsettias and diamonds are ready for your festive arrangements and creativity. There's no time for a long winter's nap with this collection in your sewing room. Wishing you a bright and joyous holiday!

Did You Know?

The history of batiks can be traced back to more than 2,000 years ago in Asia. The word batik originates from the Javanese word "*tik*" which means dot. Batik is both a noun and a verb.
